

ASTRONAUTAS TOKEN

\$ASTRO

Established April 2021

WHITEPAPER 0.1 *(BETA)*

SUMMARY

1. Description;
2. Incentive;
3. Astronomics;
4. Noble cause;
5. Roadmap;
6. Family;
7. Log;

DESCRIPTION

\$ASTRO is a decentralized token that has a super deflationary black hole that hyper-empties the token's stock.

When you buy \$ASTRO, you become an astronaut and are part of our community. \$ASTRO was launched without pre-sale and without people holding a large part of the tokens.

An initiative with a focus on being fair to all stakeholders who believe in the project. A token economically based on community actions, together we will make it happen.

\$ASTRO is a decentralized progressive deflationary token created for success. \$ASTRO's path is determined by market fluctuations, but the model in which it operates leads \$ASTRO to succeed. \$ASTRO was launched on April 4, 2021 and reached the mark of 850 holders on the same day.

INCENTIVE

\$ASTRO is focused on the long term, with exponential gains for investors, and to encourage this movement our contract was programmed to distribute 1% of each transaction to everyone which purchased the token.

The second incentive of this movement is the philanthropy involved behind it. Another 1% of all transactions is going to be sent to a charity donation pool which is going to be donated to a charity chosen by the community itself. (pg 7)

ASTRONOMICS

- Total Supply: 1,000,000,000,000,000;
- 50% burned;
- 10% marketing;
- 1% dev team;
- 1% of each transaction is burned;
- 1% of each transaction goes to investors;
- 1% of each transaction goes to charity donations
(*institutions will be chosen by the community*)
- Maximum allowed transaction: 50000000000000 Astros
(*anti-whale system*)

NOBLE CAUSE

The world is a mess, with many people needing help daily. Here at \$ASTRO, for each transaction we will insure 1% and accumulate an amount to donate to any charity that the community will choose.

ROADMAP #01

April

Fair and silent launch, without pre-sales;
Website development;
Social media;
Partnerships with influencers;
CMC and CG application;
Blockfolio application;
UniRocket Bot application;
